How it works:

- 1) First step, we create the clients (add name, contact and emails)
- 2) I create the estimation. I enter the registration number of each vehicle and then I follow a **procedure**
- 3) Then I can choose the assessor (I have to be able to create, as many I want) and the day that he must done the assessment.
- 4) 3 step before the estimation finishes

The screenshot shows the 'MyEstimator' web application interface. The top navigation bar includes a sidebar with menu items: Dashboard, Customers, Garages, Vehicles, Users, Externals, Contacts, Requests, Jobs, Links, Reports, and Lists. The main content area is titled 'Dashboard' and features two summary sections: 'Requests' and 'My account'.
